His mercies are new every morning

“Desperate Times require Desperate Measures!” The timing is now, the training is needed and the decision is ours!

God want to raise up Nazirites in every area of Society. As we see an extremely powerful generation emerging with an extra ordinary calling, we also need an extra ordinary and extreme powerful training: A training for a Nazirite Lifestyle. If we don't, we might see this generation end up like Samson, losing purpose and anointing all together. We need to see them rise up like Elijah confronting the prevailing and ruling influences of his time. This training will intentionally bring out the Elijah anointing and prevent the Samson syndrome.

As before, we just pray that the Nazirites will rise up today, today we are “intentionally” raising them up! It's time to see the Elijah Generation mature and be released. This training is not just for those in the ministry, but more importantly those in Business or the Marketplace; Media, Government and the Arts. Even young people seeking to make a difference in their generation will be changed by this training.

I encourage you to seize the opportunity, for the timing is now! Las Vegas needs to see it's Nazirites. The groaning of this generation increases!
